

Tata Power's Club Enerji organises awareness rally on energy conservation in Delhi

TATA Power's Club Enerji students from, Gyaan Mandir Public School, New Delhi, recently organised an awareness rally on energy conservation.

The objective of this initiative in which over 105 students along with teachers participated, was to communicate to a large audience about the various ways of conserving energy along with encouraging children to become responsible citizens of the society.

Through the rally, students left behind an impression on the minds of more than 1000 onlookers using a myriad of colourful posters, banners and placards that were prepared by them before the rally.

It was a step towards developing young minds to become aware and accountable for their actions towards mother earth. Tata Power's Club Enerji has won numerous accolades and has been recognised as a best practice in forums like Learning Mission by the Tata group.
